EXPERIENCE

Full-Stack Web Developer, Bookspan, 34 West 27th St. 10th Fl., New York, NY
November 2015 – onward

- Created a NodeJS+React+Redux E-commerce web app, that handles 13 different separate web stores, replacing the old Magento web stores, and handled the associated data migration.
- Adding features to internal CMS (NodeJS+React), SQS driven internal message processing system (NodeJS)
- Worked with the product team on designs that maximize customer conversion utilizing our in-house A/B testing.
- As a team refactored over 90% of one of our E-commerce web platforms, to move over to TypeScript from Javascript and to implement unit testing on back and front-end code

Full-Stack Web Developer, YouVisit, 27 West 35th St. 12th Fl., New York, NY
June 2015 – October 2015

- Updated features for our client-facing website (LAMP+Javascript), which hosts the tours experiences our company is know for
- Built features to our internal CMS (LAMP+Javasript), which is utilized to create tours and is utilized internally and by clients
- Worked with AWS and Brightcove APIs
- Daily stand-ups to keep everyone abreast to progress

EDUCATION

Bachelor of Arts (Computer Science) - Macaulay Honors College, CUNY - Hunter College
Graduation Date: June 2015   GPA: 3.50
